

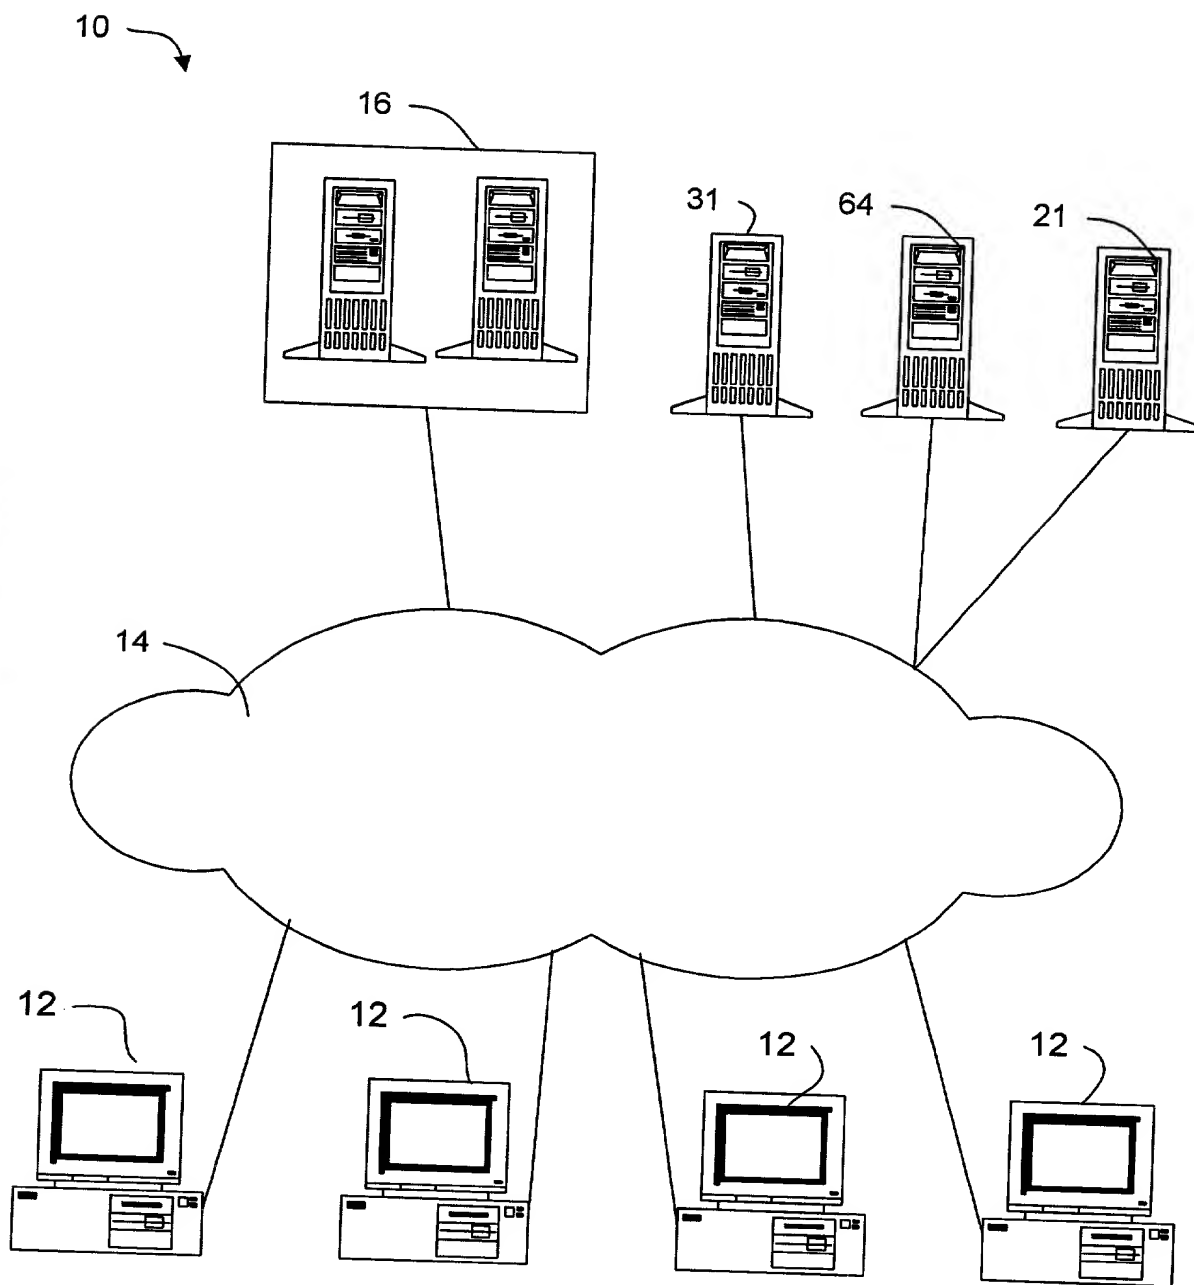

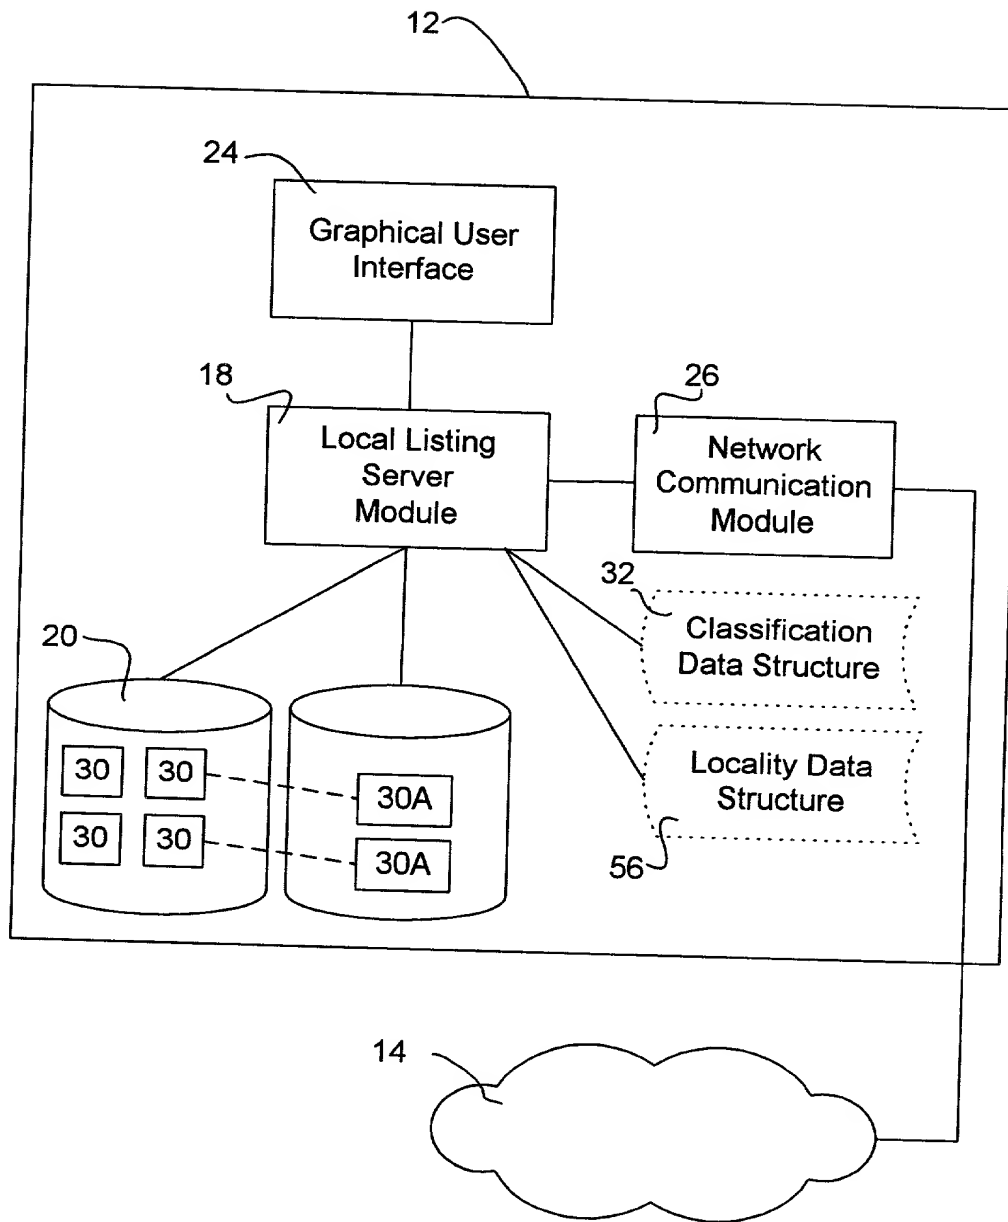

FIG. 1 is a schematic diagram of a network system 10. The system 10 includes a central cloud 14, which is connected to a plurality of devices. The devices include a server rack 16, three individual server units 31, 64, and 21, and four desktop computers 12. The server rack 16 and the individual server units 31, 64, and 21 are connected to the cloud 14 via a network. The desktop computers 12 are also connected to the cloud 14 via a network.

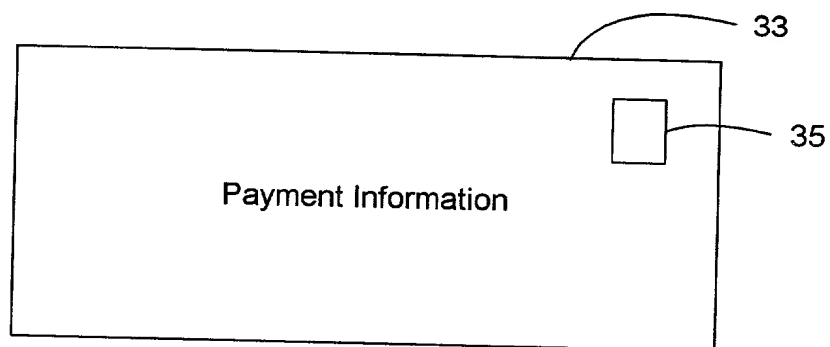

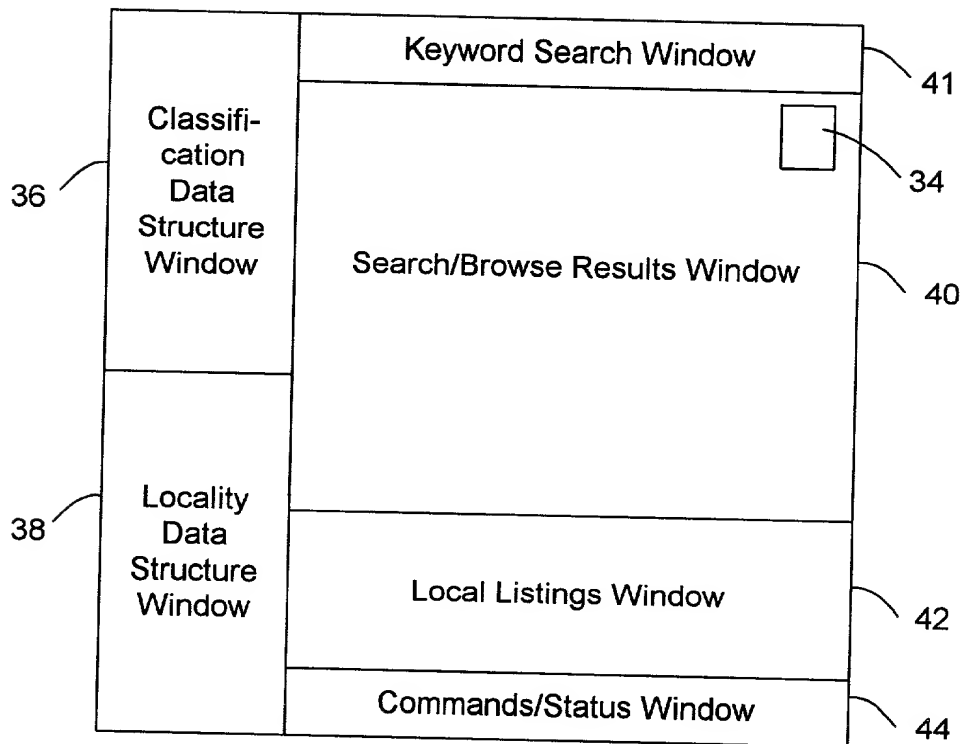

**FIG. 1**

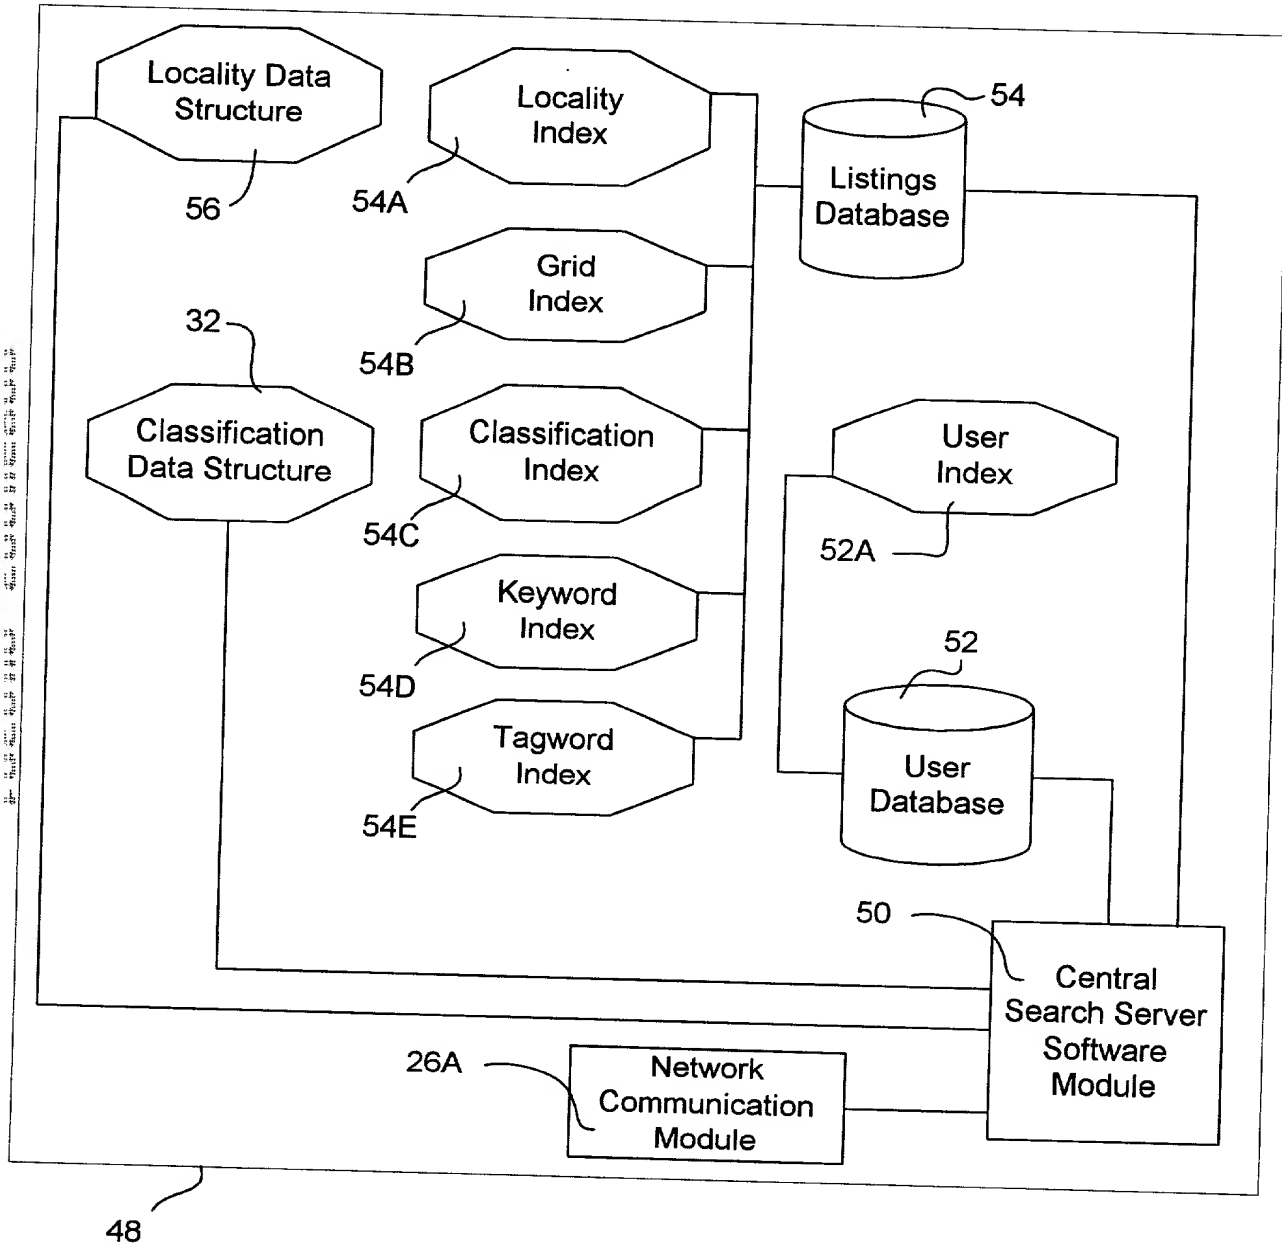

FIG. 2 is a block diagram of a system 12. The system 12 includes a Graphical User Interface 24, a Local Listing Server Module 18, a Network Communication Module 26, and a database 20. The database 20 includes a first set of data 30 and a second set of data 30A. The system 12 is connected to a cloud 14. The system 12 also includes a Classification Data Structure 32 and a Locality Data Structure 56.
